Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-16, drawn to composition/pharmaceutical compositions comprising a thus effective amount of intimate admixture of vitamin A, vitamin C, vitamin E, and zinc and selenium values, classified in class 514, subclass 904, for example.
 - II. Claim 17, drawn to methods of using a composition comprising a thus effective amount of intimate admixture of vitamin A, vitamin C, vitamin E, and zinc and selenium values, classified in class 424, subclass 401, for example.
2. Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the process for using the product as claimed can be practiced with another materially different product. For instance, in US 6156899, Galey et al. teach a method for inducing/stimulating hair growth and/or retarding hair loss comprising the administration of N-aryl-2-hydroxyalkylamido compounds; in US 6149933, Nelson teaches a method for inducing repigmentation of the hair comprising the administration of a composition comprising copper salt, para-aminobenzoic acid or salts thereof, pantothenic acid or salts thereof,

and vitamin B; in US 5068315, Buultjens et al. teach a method of increasing the diameter of the hair strand, and/or lengthening the hair strand, and/or preventing, retarding, or arresting the process of hair loss comprising the administration of polypeptides; and, in US 5827510, Mesquitta teaches a method of improving the quality of hair comprising the administration of a composition comprising castor oil, water and glycerin.

3. Because these inventions are distinct for the reasons given above and the search required for one Group is not required for another Group, restriction for examination purposes as indicated is proper.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
